## Independent Auditor's Report

To the Board of Trustees  
City of Detroit Police and Fire Retiree Health Care Trust

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the City of Detroit Police and Fire Retiree Health Care Trust (the "Trust") as of and for the year ended December 31, 2019 and the related notes to the financial statements, which collectively comprise the Trust's basic financial statements, as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the fiduciary net position of the City of Detroit Police and Fire Retiree Health Care Trust as of December 31, 2019 and the changes in its fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Emphasis of Matter***

As explained in Note 1, the financial statements include investments valued at \$177,200,900 (76.8 percent of net position) at December 31, 2019, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by investment managers and other pricing services. In addition, as explained in Note 4, the COVID-19 pandemic has significantly impacted the financial markets, which in turn has caused the Trust's investment portfolio to significantly decline subsequent to year end. Our opinion is not modified with respect to these matters.

To the Board of Trustees  
City of Detroit Police and Fire Retiree Health Care Trust

***Other Matter***

***Required Supplemental Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedule of changes in the net OPEB liability and related ratios be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the schedule of OPEB investment returns that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

# City of Detroit Police and Fire Retiree Health Care Trust

## Management's Discussion and Analysis

### Using This Annual Report

This annual report consists of three parts: (1) management's discussion and analysis (this section), (2) the basic financial statements, and (3) required supplemental information. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

### Overall Fund Structure and Objectives

The City of Detroit Police and Fire Retiree Health Care Trust (the "Trust") was established on December 10, 2014 (the "Effective Date") under the Plan for the Adjustment of Debts of the City of Detroit (the "Plan of Adjustment") in the matter titled, *In re: City of Detroit, Michigan, Debtor, Chapter 9, Case No. 13-53846*, in the United States Bankruptcy Court for the Eastern District of Michigan. The Trust is newly created as a result of the settlement of certain legal claims made pertinent to that litigation and is established to provide health benefits to existing City of Detroit, Michigan retirees and certain dependents. The Trust is established as a governmental Voluntary Employees Beneficiary Association (VEBA) pursuant to Section 501(c)(9) of the Internal Revenue Code.

The City of Detroit Police and Fire Retiree Health Care Trust is responsible for providing benefits for the welfare of certain police and fire retirees of the City of Detroit, Michigan (the "City"), along with their eligible spouses and dependents, with an effective date of retirement on or before December 31, 2014 and who were eligible to receive retiree healthcare benefits from the City at the time of retirement. Benefits under the Trust will be provided to retirees through the purchase of insurance coverage, or by reimbursement of eligible expenses, in accordance with the Trust and applicable state and federal laws.

### Condensed Financial Information

The table below compares key financial information in a condensed format:

	2019	2018
Total assets	\$ 232,365,866	\$ 224,931,671
Total liabilities	1,500,911	946,707
 Fiduciary net position	 \$ 230,864,955	 \$ 223,984,964
 Net investment gain	 \$ 16,134,845	 \$ 22,281,444
Contributions - Foundation for Detroit's Future	43,750	43,750
Retiree health benefits paid - Net of employee contributions	(8,480,869)	(7,632,539)
General and administrative expenses	(817,735)	(797,071)
 Net increase in fiduciary net position	 \$ 6,879,991	 \$ 13,895,584

### Trust Contributions

Contributions to the Trust are established in the Plan of Adjustment and other grant agreements established out of the City's bankruptcy. The Plan of Adjustment required the City to distribute \$253,900,999 of the City's Financial Recovery Bonds, Series 2014B(1) and 2014B(2) on the Effective Date. This contribution represents a complete discharge of the City's OPEB obligation with respect to the Trust's membership, and no additional contributions from the City are required under the Plan of Adjustment. The Trust also received \$1,816,429 from the Foundation for Detroit's Future pursuant to two separate grant agreements during the period ended December 31, 2015. In addition, the Trust received \$3,975,000 from the City of Detroit Employee Benefits Plan during the period ended December 31, 2015, of which \$500,000 was a loan that was forgiven during the year ended December 31, 2016. Future contributions will be limited to \$43,750 to be made annually until 2034 under a grant agreement with the Foundation for Detroit's Future (the "Foundation"). Member contributions to the Trust are required based on cost-sharing provisions depending upon on the medical plan selected and serve to offset a portion of the monthly insurance premium paid by the Trust on a member's behalf.

# **City of Detroit Police and Fire Retiree Health Care Trust**

## **Management's Discussion and Analysis (Continued)**

### ***Retiree Health Benefits and Employee Contributions***

As of January 1, 2015, the City has no further responsibility to provide retiree health care or any other retiree welfare benefits to retirees that are part of this plan; such responsibility falls wholly upon the Trust. The board of trustees of the Trust (the "Board") is responsible for designing, adopting, maintaining, and administering retiree healthcare benefits for eligible retirees and beneficiaries. The Board will be under no obligation to design the retiree healthcare plan to ensure that the assets of the Trust are sufficient to provide benefits to all potential participants of the plan.

The participant population of the Trust is composed of approximately 8,600 retirees and beneficiaries in receipt of one of the Medicare Advantage plans or covered by an health reimbursement arrangement (HRA) benefit. Optional dental and vision benefits were also offered to all eligible retirees and beneficiaries at full cost to the participant. Member contributions to the Trust under cost-sharing provisions in the 2019 plan year were required as follows:

Medicare Advantage Plan	Monthly Retiree Contribution One-person Coverage	Monthly Retiree Contribution Two-person Coverage
Aetna PPO	\$0	\$0
Priority Health HMO	\$12.97	\$25.94

Retiree contributions for 2019 dental and vision coverage options were as follows:

Plan	Monthly Retiree Contribution One-person Coverage	Monthly Retiree Contribution Two-person Coverage	Monthly Retiree Contribution Family Coverage
Delta Dental HP PPO	\$35.77	\$70.82	\$119.07
Delta Dental LP PPO	\$29.76	\$56.04	\$96.76
VSP Vision	\$13.50	\$13.50	\$13.50

### ***The City's Financial Recovery Bonds***

The B notes owned by the Trust are general unsecured obligations of the City of Detroit, Michigan, with a 30-year maturity date, paying interest at a rate of 4 percent for the first 20 years and 6 percent for years 21 through 30. Interest payments are made twice annually on April 1 and October 1. Amortization of the B notes is interest only for 10 years, with amortization in 20 annual installments beginning on the interest payment date nearest to the 11th anniversary from issuance. During fiscal year 2018, the Trust sold 20 million units of the B notes, receiving proceeds of \$16,210,000. During fiscal year 2019, the Trust sold an additional 35 million units of the B notes, receiving proceeds of \$30,346,400. Due to the City's recent exit from bankruptcy, its lack of an established credit rating, and other economic factors outside the Board's control, the new B notes owned by the Trust have a market value of approximately 89 percent of face value (i.e., \$177,200,900) at December 31, 2019.

### ***Economic Factors***

The Trust will provide future benefits only to the extent that plan assets are available to pay them. Plan assets available to pay future benefits are highly dependent on performance of the Trust's investment portfolio. Subsequent to December 31, 2019, the Trust's investment portfolio has incurred a significant decline in fair value, consistent with the general decline in financial markets due to the COVID-19 pandemic. Like many investors, the Trust's investments fluctuate due to market volatility and market downturns. However, because the Trust has a significant concentration in bonds held by the City of Detroit, Michigan, the City's ability to pay will greatly impact the Trust's future ability to make benefit payments. The Trust will continue to invest through a prudent, long-term perspective to elongate future benefits provided by the Trust.

## **Notes to Financial Statements**

---

**December 31, 2019**

### **Note 1 - Significant Accounting Policies**

#### ***Accounting and Reporting Principles***

The City of Detroit Police and Fire Retiree Health Care Trust (the "Trust") follows accounting principles generally accepted in the United States of America (GAAP) applicable to governmental units. Accounting and financial reporting pronouncements are promulgated by the Governmental Accounting Standards Board (GASB).

The following is a summary of the significant accounting policies used by the Trust.

#### ***Reporting Entity***

The City of Detroit Police and Fire Retiree Health Care Trust (the "Trust") is governed by a seven-member board of trustees and, for the first four years, one additional nonvoting, ex officio member. The Trust was established under the Plan for the Adjustment of Debts of the City of Detroit (the "Plan of Adjustment") related to the City of Detroit, Michigan's (the "City") Chapter 9 bankruptcy on December 10, 2014. The Plan of Adjustment provides for the establishment of the Trust as a governmental Voluntary Employees Beneficiary Association (VEBA) pursuant to Section 501(c)(9) of the Internal Revenue Code of 1986, as amended.

The Trust is responsible for providing benefits for the welfare of certain police and fire retirees of the City of Detroit, Michigan, along with their eligible spouses and dependents, with an effective date of retirement on or before December 31, 2014 and who were eligible to receive retiree healthcare benefits from the City at the time of retirement. Benefits under the Trust will be provided to retirees through the purchase of insurance coverage, or by reimbursement of eligible expenses, in accordance with the Trust and applicable state and federal laws. Benefit expense for the year ended December 31, 2019 was \$8,480,869, which is net of \$3,249,286 in employee contributions toward premiums.

The Trust was established on December 10, 2014 under the Plan of Adjustment, at which point the Trust was distributed approximately \$253.9 million of the City's Financial Recovery Bonds, Series 2014B(1) and 2014B(2) (the "bonds"). During fiscal year 2018, the Trust sold a portion of these bonds with a face value of \$20,000,000. During fiscal year 2019, the Trust sold an additional portion of these bonds with a face value of \$35,000,000. As of December 31, 2019, the remaining bonds held by the Trust had a market value of \$177,200,900. These bonds represent the entire funding responsibility of the City.

The Trust will provide future benefits only to the extent that plan assets are available to pay them. The Trust is under no obligation to design the retiree healthcare benefits plan to ensure that the assets of the Trust are sufficient to provide benefits to all potential participants in the plan for any particular period.

The Trust also sponsors a health reimbursement arrangement (HRA) benefit for non-Medicare-eligible retirees and spouses. This benefit is also offered to Medicare-eligible retirees electing to opt out of coverage under the Trust's Medicare program. Upon enrollment, eligible retirees receive a monthly HRA benefit.

#### ***Basis of Accounting***

The Trust's financial statements are prepared using the accrual basis of accounting and the economic resources measurement focus. Revenue is recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Contributions are recognized when due pursuant to legal requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the Trust.

#### ***Specific Balances and Transactions***

##### **Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired.

# **City of Detroit Police and Fire Retiree Health Care Trust**

---

## **Notes to Financial Statements**

**December 31, 2019**

### **Note 1 - Significant Accounting Policies (Continued)**

#### **Investments**

Investments are reported at fair value or estimated fair value. Investments that do not have an established market value are reported at estimated fair value, as determined by the Trust's management.

As of December 31, 2019, the Trust holds City of Detroit Financial Recovery Bonds Series 2014B(1) and 2014B(2) with a face value of \$198,900,999 and an estimated market value of \$177,200,900. The bonds do not have a readily determinable market value given the illiquidity and limited trading of these bonds. Management's estimates of these values are based on information provided by investment custodians and other pricing services. Because they are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ significantly from the values that would have been used had a ready market for these securities existed. The City of Detroit, Michigan's ability to pay both interest and principal on this obligation has a significant impact on the value of these B notes, and given the significant concentration the Trust has in these investments, any significant change in the value of this investment could significantly impact the ability of the Trust to pay benefits.

The bonds mature in 2044 and carry an interest rate of 4.0 percent for the first 20 years and a 6.0 percent interest rate thereafter. For the first 10 years, semiannual interest-only payments will be made on the bonds. Beginning on the 11th anniversary of the issuance, 20 installments will be made annually.

#### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### ***Federal Income Taxes***

The Trust is tax exempt under Section 501(c)(9) of the Internal Revenue Code.

### **Note 2 - Deposits and Investments**

The Trust is not limited in the types of investments held by any legal or contractual provisions. The Trust has designated three banks for the deposit of its funds. Under the Plan of Adjustment, the City was required to distribute the bonds to provide initial funding for the Trust. The bonds were the primary investment held by the Trust, but the Trust has sold a portion of the bonds to diversify its portfolio.

The Trust's cash and investments are subject to several types of risk, which are examined in more detail below:

#### ***Custodial Credit Risk of Bank Deposits***

Custodial credit risk is the risk that, in the event of a bank failure, the Trust's deposits may not be returned to it. The Trust does not have a deposit policy for custodial credit risk. At year end, the Trust had \$991,388 of bank deposits that were uninsured and uncollateralized. The Trust believes that, due to the dollar amounts of cash deposits and the limits of Federal Deposit Insurance Corporation (FDIC) insurance, it is impractical to insure all deposits. As a result, the Trust evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

#### ***Interest Rate Risk***

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates.

# City of Detroit Police and Fire Retiree Health Care Trust

## Notes to Financial Statements

December 31, 2019

### Note 2 - Deposits and Investments (Continued)

At year end, the Trust had the following investments and maturities:

Fiduciary Funds	Fair Value	Less Than 1 Year	1-5 Years	6-10 Years	More Than 10 Years
City of Detroit Financial Recovery bonds	\$ 177,200,900	\$ -	\$ -	\$ -	\$ 177,200,900
Corporate bonds	\$ 17,538,329	\$ 2,676,851	\$ 9,640,458	\$ 5,221,020	\$ -
<b>Total</b>	<b>\$ 194,739,229</b>	<b>\$ 2,676,851</b>	<b>\$ 9,640,458</b>	<b>\$ 5,221,020</b>	<b>\$ 177,200,900</b>

#### Credit Risk

As of year end, the credit quality ratings of debt securities per Standard & Poor's (other than the U.S. government) are as follows:

Investment	AA+	AA	AA-	A+	A and Below	Not Rated
Municipal bonds	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 177,200,900
Corporate bonds	\$ 844,725	\$ 1,789,165	\$ 1,676,303	\$ 3,667,834	\$ 9,560,302	\$ -
<b>Total</b>	<b>\$ 844,725</b>	<b>\$ 1,789,165</b>	<b>\$ 1,676,303</b>	<b>\$ 3,667,834</b>	<b>\$ 9,560,302</b>	<b>\$ 177,200,900</b>

#### Concentration of Credit Risk

The Trust places no limit on the amount it may invest in any one issuer. More than 5 percent of the Trust's investments are in the City of Detroit Financial Recovery Bonds, Series 2014B(1) and 2014B(2); these investments are 86 percent of the Trust's total investments. See Note 4 regarding events subsequent to December 31, 2019 related to global COVID-19 pandemic.

#### Fair Value Measurements

The Trust categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

As of December 31, 2019, the Trust has the following recurring fair value measurements:

- Equities of \$11,463,578 are valued using quoted marketed prices (Level 1 inputs).
- Bonds of \$194,739,229 are valued using a matrix pricing model (Level 2 inputs).

The Trust did not have any investments valued with Level 3 inputs at December 31, 2019.

In addition, the Trust has an investment reported at amortized cost in accordance with GASB Statement No. 79. This investment is not subject to any limitations or restrictions on withdrawals.

# **City of Detroit Police and Fire Retiree Health Care Trust**

---

## **Notes to Financial Statements**

---

**December 31, 2019**

### **Note 3 - Other Postemployment Benefit Plan**

#### ***Plan Description***

The Trust provides healthcare benefits to retirees, and their eligible spouses and dependents, with an effective date of retirement on or before December 31, 2014 and who were eligible to receive retiree healthcare benefits from the City of Detroit, Michigan at the time of retirement. This is a single-employer benefit plan administered by the Trust. As of December 31, 2019, there were 8,573 participants in the plan.

Management of the Trust is vested with the board of trustees, which consists of seven members.

#### ***Benefits Provided***

The Trust provides healthcare and vision benefits for certain police and fire retirees of the City of Detroit, Michigan, along with their eligible spouses and dependents, with an effective date of retirement on or before December 31, 2014 and who were eligible to receive retiree healthcare benefits from the City at the time of retirement. Benefits are provided through third-party insurers, or by reimbursement of eligible expenses, in accordance with the Trust and applicable state and federal laws.

#### ***Contributions***

Contributions are established in the Plan of Adjustment and other grant agreements. The Plan of Adjustment required the City to distribute \$253,900,999 of the City's Financial Recovery Bonds, Series 2014B(1) and 2014B(2) on the effective date (December 10, 2014). The City of Detroit, Michigan no longer has any responsibility to provide retiree healthcare or any other retiree welfare benefits. Future contributions are limited to \$43,750 to be made annually until 2034 under a grant agreement with the Foundation for Detroit's Future (the "Foundation"). Plan members are required to contribute based on cost-sharing provisions dependent upon the medical plan selected.

#### ***Total OPEB Liability***

The Trust will provide future benefits only to the extent that plan assets are available to pay them. After the contribution of the bonds from the City of Detroit, Michigan, no further employer contributions will be made to the Trust. Future contributions will be composed only of \$43,750 annually until 2034 under a city grant agreement with the Foundation. As such, the total OPEB liability as of December 31, 2019 is equal to the plan net position of \$230,864,955.

The majority of net position of the Trust is the City of Detroit Financial Recovery Bonds. Valuation of these bonds is at current market value, which is heavily discounted from the face or principal value of the bonds and represents less than the expected future cash flows if the City fulfills all of its obligations under the notes. Therefore, if the City ultimately does pay 100 percent of the interest and principal of the bonds, the benefits the Trust are able to provide will be higher than what is currently projected. However, payment on these bonds may be significantly impacted by the City's financial condition.

# **City of Detroit Police and Fire Retiree Health Care Trust**

---

## **Notes to Financial Statements**

---

**December 31, 2019**

### **Note 3 - Other Postemployment Benefit Plan (Continued)**

#### *Investment Policy*

As of December 31, 2019, the Trust has not adopted a policy in regard to the allocation of invested assets given that the majority of the investments held are the B Notes from the City of Detroit, Michigan. As the Trust begins selling additional bonds, the Trust will formalize an investment strategy that manages risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes.

### **Note 4 - Subsequent Events**

On March 11, 2020, the World Health Organization declared the outbreak of a respiratory disease caused by a new coronavirus a pandemic. First identified in late 2019 and now known as COVID-19, the large-scale pandemic has significantly impacted the global economy. As a result, the Trust's investment portfolio has incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.

A substantial portion of the Trust's investment portfolio (86 percent) is composed of the City of Detroit Financial Recovery Bonds (B Notes). The City of Detroit, Michigan's financial position has a significant effect on the value of the B Notes and, therefore, the ability of the City to make the required debt service payments to the Trust. Subsequent to year end, while not downgrading its credit rating, S&P changed the City of Detroit, Michigan's bond outlook from stable to negative.

As the Trust will provide future benefits only to the extent that plan assets are available to pay them, the total OPEB liability is either the present value of future benefits based on current benefit levels or the Trust's ending net position plus the present value of future assets, whichever is lower. For December 31, 2019, the Trust's total OPEB liability is the ending net position, as this is currently lower than the present value of future benefits.

There is no applicable payroll; therefore, no covered payroll is presented.
